DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Examination has been precluded due to applicant's failure to distinctly claim the subject matter that applicant regards as their invention. Specifically, applicant has claimed an electric drive system "for a vehicle and/or a stationary training apparatus...". Applicant goes on to claim details regarding the electric drive system, but provides alternative limitations based on whether the electric drive system is applied to a stationary device or a vehicle. Applicant's failure to properly claim the limitations of the single drive system prevents proper examination and search. Appropriate correction is required wherein the applicant distinguishes in the independent claim whether the drive system being claimed is for a land vehicle or a stationary training device thus allowing the examiner to perform a proper search.
